

TOWERS AND TREASURE OF AMIENS CATHEDRAL

The largest Gothic Cathedral in France.

Built in the 13th century to the plans of Robert de Luzarches, and at the initiative of Bishop Evrard de Fouillois, Amiens Notre-Dame Cathedral remains the largest Gothic construction in France. Access to the towers offers a superb view of the 113 meters spire, and over the city of Amiens.

Visitors can now discover the treasure room from inside the cathedral. The treasure in Amiens Cathedral disappeared in 1793 after the French Revolution but has gradually been recovered over the years. It contains several relics: head of Saint John the Baptist, shrine of Saint Firmin, votive crown of Paraclet...

Cathedral designated world heritage site by UNESCO.
